

Testimonials

Mike has demystified the major mysteries and in so doing has removed the main perceived mental barriers, surrounding 'Implants' for the beginner. Mike's amusing commentaries leave lasting memories that are linked to his delivery of key concepts in Dental 'Implantology' that facilitate the learning process. "An obviously astute Clinician with a knack of making 'Learning' seem easy". "Simple Impressive. A true 'agent of change' for Implants".
Winston Jamaica

Hi Dr. Mike,
Let me tell you that I'm proud of myself. I placed my first two implants and it was simple since all your explanations. Wow... what amazing procedure. Thanks to you I'm starting a new Age in my career.
Dr. Manuel Avakian Caracas, Venezuela

When I received information about course it appealed to me by advertised prices and protocol simplicity. I used an opportunity to take a course they conduct and I liked what this system can do. The course is designed in a way that all aspects of surgical and restorative procedures covered with the minimum inventory. If I have to describe the course two words it would be: simplicity and efficiency.
Dr Calin Cioban, D.M.D., PhD Arad, Romania

Dear Dr. Shulman,
Thank you so much for your excellent hands on course. I maintain a midtown Manhattan dental practice and have been to many implant seminars. The presentation was excellent. I can't wait to get started and your offer of providing supervision took away any reservations that I had concerning my initial implant placement. Thank you,
Dr. Lawrence Spindel New York, NY

Dear Dr. Shulman:
I been successfully placing dental implants for 40 years, starting with Scialom pins, Linkow's blades (including full arch) and full arch subperiosteal frames. I continued using blades over the years that root form implants were going through failures and re-inventions (I removed many root forms in my office that were placed by other dentists). When I heard that your training course in a root form design implant had the imprimatur of Dr. Leonard Linkow, that was enough to convince me that there might be a root form implant in which I could have the same confidence that I had with blades. This training was the turning point for me becoming a believer in root form implants. The course you led was presented clearly on the step by step basis so that even a dentist with no implant experience could confidently place implants the next day in their own office. Not only that, but you graciously offered to have any class attendee bring an implant candidate into your office to have an implant place under your tutelage. This is the ultimate offer in personal training. Thank you converting me to root form dental implants.
Robert Dubman, D.D.S.
Scotch Plains, NJ

Dear Dr. Shulman:
Thank you very much for your excellent lecture which is very precise and easy to understand, the hands-on training is very practical and easy to follow. Your course "Basics of Oral Implantology" gives me great confidence to start implant procedure in my practice. As a former teaching faculty in Operative Dentistry, I believe in that implant procedure provides the best treatment option, every dentist should have adequate knowledge in Implantology. It is a great honor to have Dr. Leonard Linkow to stop by in your course. Congratulations for job well done!!! I would encourage everyone "Go For It"!!! Please extend my best wishes to Dr. Linkow, your family and staff.
Sincerely yours,
Stephen C. Hsu, Ph.D., D.M.D
Former Associate Professor
Temple Dental School.

Mike,
It was a great overall course; very detailed and instructional. I learned a lot and feel much more confident in doing implant cases.
Dr. Tatyana Lysenko
Mt. Laurel, NJ

Dr. Mike Shulman:
Estoy muy agradecida con usted por la experiencia que he tenido en su oficina viendole trabajar con sus pacientes. Esto ha sido un enriquecimiento para mi vida profesional ahora que estoy incursionando en el mundo de la implantologia. Usted es una persona con mucho ingenio, capaz de simplificar muy profesionalmente los procedimientos mas complicados.
Afectuosamente, Myriam Lamus. New York

I had the pleasure to attend the surgical course at the 2008 GNYDM, held by Dr. Linkow and Dr. Shulman. I was completely satisfied. Thanks
Dr. Darko Veljanovski Macedonia, EU
